

Kagoor's *VoiceFlow* 3000 Receives 2003 "Product of the Year" Award From INTERNET TELEPHONY Magazine

*Carrier-Class Session Border Controller chosen for its
technological excellence and vision*

SAN MATEO, CA—January 30, 2004 - Kagoor Networks announced that Technology Marketing Corporation (TMC®)'s *INTERNET TELEPHONY*® magazine named the *VoiceFlow* 3000 session border controller as a Product of the Year winner for 2003. *INTERNET TELEPHONY*® is the premier publication in the burgeoning IP telephony industry.

"Kagoor's *VoiceFlow* 3000 is clearly deserving of leadership status in the VoIP networking sector of the IP telephony industry. We're proud to reward their hard work and innovation with a Product of the Year Award for 2003," said Rich Tehrani, president of TMC and group editor-in-chief of *INTERNET TELEPHONY*®.

VoiceFlow is a carrier-class, high capacity, high availability session border controller that provides VoIP service providers and carriers with a high performance, integrated packet processing platform that has the widest range of session border control applications and features. Key applications include hosted NAT traversal, network protection (VoIP firewall), network aggregation with VPN and VLAN support, Carrier VoIP peering, and VoIP endpoint configuration and management.

VoiceFlow 3000 delivers exceptional gigabit processing for all VoIP traffic, and is capable of handling up to 20,000 concurrent VoIP calls. *VoiceFlow* 3000 has the largest library of VoIP protocols, including SIP, H.323, and MGCP and an extensive inventory of proprietary vendor extensions. *VoiceFlow* 3000 has been successfully deployed by service providers and carriers in both edge and core applications.

"Having our *VoiceFlow* 3000 awarded a 2003 "Product of the Year" Award, further strengthens the credibility and overwhelming interest for our session border controller solutions," said Opher Kahane, CEO, Kagoor Networks. "We are very pleased to receive such a high recommendation from the editor's of *INTERNET TELEPHONY* magazine as they hear about hundreds of new products each day in our industry."

According to Editorial Director Greg Galitzine, "The Product of the Year awards exemplifies the best that this industry has to offer. Kagoor Networks has demonstrated a commitment to quality, and a commitment to the further development of the IP telephony industry through its *VoiceFlow* 3000 session border controller. Kagoor deserves this great honor, and I look forward to seeing other innovative solutions from them as they continue to contribute to the future of IP telephony."
